

ENTRUST FASHIONS LTD

Welcome To Entrust Group...

Not long after the independence of the country, the economy of Bangladesh mainly became dependent on the ready-made garments industry. Foreseeing the greater aspects and the opportunity Mohammad Aktaruzzaman, Managing Director of Entrust Group, dedicated himself within the industry for more than 20 years. Being involved in growth of the renowned conglomerates, he has accumulated vast experience and skills and a wide variety of knowledge. To contribute to the country economy and to implement his expertise to the most, the commencement of ENTRUST GROUP has been started.

The Entrust Group is entirely a family-owned business, lead by Mohammad Aktaruzzaman as Managing Director. The company has started its business since 2012 with the sourcing company, ENTRUST SOURCING LINES LTD. aiming the excellence of innovative fashions in Woven, Knit and Sweaters.

Later on, in 2016, ENTRUST GROUP established a state-of-the-art manufacturing facility, ENTRUST FASHIONS LTD, focusing mainly on the Woven Pants, Trousers, Shirts & Jackets accommodating the world-famous brands.

VISION :

To become one of the states of the art leading companies with a focus on responsible business, corporate ethics and ensuring the environmental safeguard.

MISSION :

Our mission is to pursue sustainable business growth, continually refine our unique processes, foster a working environment for employee satisfaction, cherish the relationship with our stakeholders and commit to a safe and greener environment.

MESSAGE FROM THE MANAGING DIRECTOR

The concept of Responsible & Ethical Business have changed processes of sustainable development globally and that makes me conscious about responsible & ethical business.

In worldwide economy, globalization which is changing our way of doing business with freer movement of products and people and today's massive privatization where corporate bodies are leading, a minor negligence by the key players in responsible sourcing will cause a huge amount of loss to the society as a whole. All the corporate bodies must voluntarily take into account social and environmental consideration when managing their relationships with other stakeholders and should not deceive them in the urge of making additional profit. There has to be a chain of commitment and responsibility for the welfare of the society which is only possible through responsible & ethical business and sourcing. This thinking and sense of responsibility are what made me passionate to set up my own business where ethics, commitment & dedication will be the priority. Not only that, it also inspired me to do something for society & community as well.

I am willing to bring this commitment to the conduct of my business and integrate my exposure to the practical and real side of responsible business to help evolve and growth of my company.

Now, when I have started doing my own business, I have given my best efforts accumulating my experience, dedication, learning and these all simply stand in one sense, The Entrust Group.

Mohammad Aktaruzzaman
Managing Director
